NEWS RELEASE

Sumitomo Mitsui Card and Digital Garage Partner to Launch Visa's Embedded Finance Solution for Business-to-Business Payments on SAP Platform for the First Time in Japan

New service enables digitization of business-to-business payments
for more efficient payments

- Visa Worldwide Japan Co., Ltd. (HQ: Tokyo; Representative Director and Country Manager, Japan: Cietan Kitney; "Visa"), SAP Japan Co., Ltd. (HQ: Tokyo; President and Representative Director: Hirofumi Suzuki; "SAP Japan"), Sumitomo Mitsui Card Company, Limited (HQ: Tokyo; President and Representative Director: Yukihiro Onishi; "Sumitomo Mitsui Card"), and Digital Garage, Inc. (TSE Prime 4819; HQ: Tokyo; Representative Director, President Executive Officer and Group CEO: Kaoru Hayashi; "Digital Garage") announced that it will launch the embedded finance solution, developed by Visa on SAP platform for streamlining business-to-business payments, for the first time in Japan during fiscal 2025.

Visa began working together with SAP in 2023 to streamline and simplify business-to-business (B2B) payments, and has developed an embedded finance solution that incorporates B2B payments into SAP's ecosystem in the Asia-Pacific region through the SAP Business Technology Platform (SAP BTP).

By using this solution on the SAP platform, companies with Visa cards will be able to make card payments to their suppliers through SAP BTP, even if those suppliers do not support card payments. When doing so, credit cards can eliminate the gap in working capital in the supply chain because post payments can be made, allowing companies to secure the funds they need in a timely manner.

With this initiative, Sumitomo Mitsui Card will support the introduction of the payment solution, while Digital Garage will support the introduction of the "invoice card payment" BPSP function.

Visa, SAP, Sumitomo Mitsui Card, and Digital Garage will continue to promote the spread of safe and secure digital payments, and enhance the efficiency of business-to-business payments.

■Company Profile

[About Visa]

Visa (NYSE: V) is a world leader in digital payments, facilitating transactions between consumers, merchants, financial institutions, and government entities across more than 200 markets. Our mission is to connect the world through the most innovative, convenient, reliable, and secure payments network, enabling individuals, businesses, and economies to thrive. We believe that economies that include everyone everywhere, uplift everyone everywhere, and see access as foundational to the future of money movement.
